

SPEEDWRAP® U-BUCKLE/U-BUNDLE KIT™

IT'S A SIMPLE SOLUTION!

SPEEDWRAP® BRAND

Self-Engaging Fastener

U-BUCKLE/U-BUNDLE KIT™ is a self-engaging fastener system with hook and loop woven on the same surface.

This single component closure offers a truly unique alternative to traditional two component hook and loop closures.

Each kit includes 15 feet of Speedwrap® Brand Quickset (self-engaging tape) and 10 buckles.

No need for welding, no sewing required! Cut to the desired length, attach and wrap the buckle, bundle the object, feed the loose end back through the buckle, cinch it shut and go. Available in white or black tape. The UBUCKLE/UBUNDLE™ cinch straps are infinitely adjustable.

BENEFITS

- Limited lint contamination
- Inventory reduction - inventory only one part as opposed various length cinch straps
- Ideal for cinching (simple strap applications)
- Soft against cables, wires, fiber optics, even the skin
